

## MAY 7.

The President, Dr. RUSCHENBERGER, in the chair.

Thirty-six persons present.

A paper entitled "Descriptions of New Species of American Bees," by E. T. Cresson, was presented for publication.

The death of Robert Frazer, a member, was announced.

*On Lepidurus Couesii*, Pack.—Dr. A. S. PACKARD placed on record the occurrence of *Lepidurus Couesii* in northern Utah. The species had not before been found south of northern Montana, near the Milk River. The determination was based upon a specimen of a female with eggs, sent to him by the Academy for examination.

The President read the following:—
